

Vendor Security Services Agreement

Synthetic agreement - event-triggered and multi-obligation test

Agreement ID	VSA-2026-014
Effective Date	September 15, 2026
Parties	Northstar Retail Pvt. Ltd. and Greenline Systems Pvt. Ltd.

1. Purpose

This Agreement defines operational and security responsibilities for managed hosting services provided by Greenline Systems Pvt. Ltd. to Northstar Retail Pvt. Ltd.

2. Security Incident Notification

- 2.1 If a security incident occurs, the Supplier must notify the Customer in writing within five calendar days after becoming aware of the security incident.
- 2.2 The written notice must include a short description of the incident, the date it was discovered, systems known to be affected, and the immediate containment actions taken.

Testing note: Clauses 2.1 and 2.2 are separate obligations. Clause 2.1 has an event trigger and a relative deadline.

3. Critical Service Outage

- 3.1 If a critical production service outage continues for more than two hours, the Supplier shall provide an incident status update to the Customer within four hours after the two-hour threshold is reached.

4. Record Retention

- 4.1 The Supplier shall retain security incident investigation records for at least ninety calendar days after the incident is closed.

5. General Information

Routine maintenance windows are normally scheduled on Sundays. This sentence is descriptive information and does not require the Supplier to take a specific action.
